PROFESSIONAL SUMMARY

Software Developer with 3+ years at Amdocs, specializing in full-stack applications, distributed microservices, and cloud-native architecture. Proven ability to boost developer productivity by 20% while streamlining workflows through automation with Python, Java, and React, delivering secure, scalable solutions that improve performance, reliability, and user experience.

TECHNICAL SKILLS

Languages & Frameworks: Python, Core Java, C++, SQL, TypeScript, Next.js 14, React 18, Node.js, Tailwind CSS

Cloud, DevOps & Tools: AWS, Jenkins (CI/CD), Docker, Kubernetes, Linux, UNIX, Git/GitHub, Firebase, Cursor, Copilot, Stitch

Backend, Architecture & System Design: Microservices, Low-Level Design (LLD), High-Level Design (HLD), REST APIs, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), PyTest, JUnit, JWT, OAuth 2.0

Databases & Core CS: PostgreSQL, MySQL, Oracle DB, Redis Caching, Query Optimization, SDLC, Agile (Scrum), OS, CN

PROFESSIONAL EXPERIENCE

AMDOCS

Pune, Maharashtra

Software Developer

07/2025 – Present

- Led design of ComcastHub, a centralized developer tooling to boost productivity by **15–20%**, deploying on AWS for scalability and ensuring UI reliability with **Jest; built with Next.js, React, TypeScript, and Tailwind.**
- Automated **85%** of daily billing workflows with a **Python/Streamlit tool** - Cipher EOC, cutting execution time from 90 to 40 minutes using **Oracle DB, Paramiko SSH, and Selenium Edge**, validated with PyTest.

Software Engineer Associate

07/2023 – 07/2025

- Developed the **GenAI-powered** BPT Charge Code Tool in Python to automate Excel parsing and relational SQL script generation, **reducing manual data entry and deployment errors by 90%.**
- Enhanced one-click job orchestration tool **APEye with Jenkins integration**, added Invoicing jobs via new RunJobs extension, reducing test cycle time from **5 hours to 1 hour**, improving turnaround time by 80%.

YHILLS EDUTECH

Noida, Uttar Pradesh

Business Development Executive Intern

01/2023 – 06/2023

- Directed operational logistics for **500+ monthly active participants** while leading and scaling a network of 25 campus leads to **accelerate regional user acquisition by 30%.**

PERSONAL PROJECTS

YOU | GenAI Clinical Wellness Platform

03/2026 – Present

Pioneered a real-time wellness platform featuring chat, clinical journaling, and automated therapist matching.

UI Demo

- Architected real-time chat infrastructure with **React, TypeScript, Firebase** under 150 ms sync; built Firestore Security Rules **ensuring PII protection** for 10K+ accounts. Applied **RBAC** for access control.
- Designed the AI backend pipeline using **Gemini 1.5 Pro** to process journals and stream grounding exercises, providing 24/7 care access, **driving user engagement metrics by 45%** over established baselines.
- Engineered automated backend matching workflow processing **PHQ-9 assessments**, cutting therapist assignment time by **60%**. Implemented **JWT authentication** for secure patient sessions.

STREAMER | Live Streaming Platform

01/2022 – 04/2022

Architected for real-time video distribution and high-availability multi-channel broadcasting.

GitHub

- Developed a multi-channel streaming prototype using React.js and Node.js with **WebSocket streaming and OBS integration**, achieving high uptime across live events secured with **Google OAuth 2.0.**

EDUCATION

Thapar Institute of Engineering and Technology

Patiala, Punjab

B.E. in Computer Engineering (CGPA: 7.96)

2019 – 2023

INTERESTS

Sports, Event Management, Learning Spanish, Guitar, Finance, Geopolitics
