Pune, Maharashtra

Software Developer
B.E. - Computer Engineering
LinkedIn
Github

TECHNICAL SKILLS

- **Languages/Frameworks:** Python, Java (Core), C++, SQL, **React.js, Node.js**, HTML/CSS/JS, Maven, UNIX, APIs, System Design, Scripting
- **Tools/Core CS:** Copilot, **Cursor, Stitch, Google Studio**, Github, Jenkins(CI/CD), Linux, DSA, OOPs, SDLC, DBMS

EXPERIENCE

• AMDOCS | Software Developer

Jul 2023 – Present

Amdocs is a software and services company that helps telecom and media businesses manage billing and digital operations.

Pune, Maharashtra

- Led design + development of “ComcastHub” - official website of the account (Next.js 14, React 18, TypeScript, Tailwind, Framer Motion), unifying multiple dev tools, projecting **15-20% productivity boost** (2-3hr/week savings/developer).
- Developed the **GenAI**-powered “BPT Charge Code Tool”, a python script that ingests Excel inputs, auto-generates SQL files for related tables, reducing manual effort by **90%**, **eliminating human error**, and cutting setup time by **75%**.
- Collaborated on Python/Streamlit “Cipher EOC” tool automating **90% of daily End-of-Cycle billing workflows** (reduced 90min → 40min, **50% faster**) using Oracle/oracledb, Paramiko SSH, Selenium Edge, pandas/numpy.
- Improved **1-click job orchestration** tool “APEye” with **Jenkins integration**, added Invoicing jobs via new RunJobs extension, reducing test cycle time **5hrs → 1hr (80% faster)**, used by 10+ developers daily for regression validation.

• YHILLS EDUTECH | Business Development Executive Intern

Jan 2023 – May 2023

An edtech company offering short-term upskilling courses for college students.

Noida, Uttar Pradesh

- Consultatively engaged** with **500+ learners** monthly via calls/chats, overcoming pricing objections through value-based selling for available courses, consistently hitting enrollment targets.
- Recruited 25** campus leads across 40 colleges through structured personal interviews, building a student referral network that drove **30% more signups**.

PROJECTS

• YOU | AI-driven Web app for Clinical Wellness

Mar 2026 - Present

Full-stack mental health app bridging therapy gap with GenAI and real-time community.

UI Link

- Built React 18/TypeScript + Firebase app with **<150ms real-time sync** for clinical notes/chats, handling secure PII for 10K+ concurrent users via Firestore Security Rules.
- Integrated **Gemini 1.5 Pro** to solve 24/7 care-delay crisis (50% lack specialist access), delivering AI grounding exercises + journal analysis; improved simulated retention **45%**.
- Designed **Bento Grid UI** with Framer Motion, reducing 25% bounce rate and 70% therapist discovery time via AI Matching Wizard.
- Built clinical assessment engine automating **PHQ-9 matching flow**, cutting manual therapist assignment 60%.

• STREAMER | Web app for Live Streaming

Jan 2022 - Apr 2022

Easy-to-use streaming app similar to TwitchTV with Google Login and core live-streaming features.

Github Link

- React.js/Node.js **multi-channel streaming** prototype with WebSocket streaming, OBS integration, Google OAuth; achieved **99% uptime** across 50+ live events.

• CRYPTOVERSE | Website for Cryptocurrency Information

Oct 2021 - Dec 2021

Provides information related to cryptocurrencies including prices and news.

Github Link

- React.js dashboard handling **10K+ API calls/day** with caching for live crypto prices/news using **CoinRanking API**.

INTERESTS

- Sports, Spanish, Event Management, **Youtube**, Singing, Guitar, Finance, Geopolitics

EDUCATION

- | | | |
|--|---|-----------|
| 1. Bachelor of Engineering (7.96 CGPA) | Thapar Institute Of Engineering and Technology, Patiala | 2019-2023 |
| 2. Senior Secondary (XII - 94.8%) | B.C.M. Sen. Sec. School, Basant City, Ludhiana | 2017-2019 |
